

PROCESS OIL

PERFORMANCE PLUS® Process Oils can be used in a wide array of applications and are available in several viscosity grades.

The foundation of Performance Plus Oils are Kleen Performance Products' hydro-treated, high VI base oils.

TYPICAL PROPERTIES

VISCOSITY GRADE	12	12 LT	22	39
Color	0.5	0.5	0.5	1.0
Specific Gravity @ 60°F	0.850	0.851	0.848	0.853
Kinematic Viscosity				
cSt @ 100°C	3.1	3.1	4.5	6.4
cSt @ 40°C	12.9	12.9	22.4	38.0
Viscosity Index	95	95	111	117
Flash Point, °C	190	192	214	238
Pour Point, °C	-39	-45	-18	-18

Note: Values shown above are representative of current production and may vary within modest ranges.
